Work Experience

Master Thesis Project - conversational AI agent for search | 04/2025 - 01/2026 | in collaboration with Europeana (European Commission founded organisation for digitised cultural heritage)

- Designed, developed, and evaluated a conversational AI agent for semantic search.
- Conducted quantitative and qualitative user study research.
- Analysed performance metrics and retrieval effectiveness.

Product Designer & Product Developer | 01/2022 - 02/2025 | microTOOL GmbH, Berlin, Germany (German company specialising in software development for Requirements Engineering and PM)

- Led end-to-end redesign and development of B2B product website, defining user journeys, conversion strategy, resulting in improved engagement and marketing automation.
- Translated business requirements into user stories and contributed to backlog refinement.
- Collaborated cross-functionally with engineering and product teams in agile sprints to prioritise features and improve user experience across desktop and web applications.

Junior Web Developer & Designer | 02/2021 - 09/2021 | Orca Affairs GmbH, Berlin, Germany (German PR agency specialising in socio-political communication)

- Participated in stakeholder workshops to gather product requirements and translate client needs into user stories and functional specifications.
- Delivered end-to-end digital products from design to production deployment.
- Collaborated with cross-functional teams to ship client-facing digital products.

Freelance Web Designer (Self-employed) | 12/2020 - 12/2023 | Berlin, Germany

Freelance Photographer (Self-employed) | 05/2017 - 12/2020 | Berlin, Germany

Research Executive | 10/2014 - 04/2017 | Research Now, London, UK
