## Work Experience

---

**Product Designer & Developer** | 01/2022 - 02/2025 | microTOOL GmbH, Berlin, Germany

(German company specialising in software development for Requirements Engineering and PM)

- Led the redesign and development of the company's B2B website, collaborating with the marketing team, which resulted in a rebranded and modernized interface as well as an improved user experience, conversion rate, and data automation to streamline editors' productivity.
- Redesigned multiple UI components across the product's desktop and web apps, improving overall usability, visual appeal, and consistency.
- Contributed to the further development of the frontend of products, using HTML, CSS, and JavaScript, in collaboration with the programmers and product managers in the agile team.

**Junior Web Developer & Designer** | 02/2021 - 09/2021 | Orca Affairs GmbH, Berlin, Germany

(German PR agency specialising in socio-political communication)

- Collaborated with a cross-functional team of frontend and backend developers to build digital products for clients across the public and private sectors.
- Participated in stakeholder meetings to collect requirements and define user stories.
- Independently developed end-to-end websites, from design to production.

**Self-employed Freelance Photographer** | 05/2017 - 12/2020 | Berlin, Germany

**PR Internship** | 03/2020 - 04/2020 | Polnischer Sozialrat e.V., Berlin, Germany

**Research Executive** | 10/2014 - 04/2017 | Research Now, London, UK
