Work Experience

Artificial Intelligence Researcher | 04/2025 - 01/2026 | Europeana
(European Commission-founded organisation for digitised cultural heritage)

- Designed, developed, and evaluated a conversational AI agent for search and data retrieval through APIs.
- Conducted quantitative and qualitative user study research.
- Analysed KPIs and technical data retrieval effectiveness.
- Published research findings on LLM-based conversational AI search behaviour.

Web Design & Product Development Specialist | 01/2022 - 02/2025 | microTOOL GmbH, Berlin, Germany
(German company specialising in software development for Requirements Engineering and PM)

- Led end-to-end redesign and development of B2B product website and managed the lifecycle of the website as a product, resulting in improved engagement and marketing automation.
- Translated business requirements into user stories and contributed to backlog refinement.
- Collaborated cross-functionally with engineering and product teams in agile sprints to develop features and improve user experience across web apps.

Junior Web Developer & Designer | 02/2021 - 09/2021 | Orca Affairs GmbH, Berlin, Germany
(German PR agency specialising in socio-political communication)

- Participated in stakeholder workshops to gather product requirements and translate client needs into user stories and functional specifications.
- Delivered end-to-end digital products from design to production deployment.
- Collaborated with cross-functional teams to ship client-facing digital products.

Freelance Web Designer (Self-employed) | 12/2020 - 12/2023 | Berlin, Germany

Freelance Photographer (Self-employed) | 05/2017 - 12/2020 | Berlin, Germany

Research Member Executive | 10/2014 - 04/2017 | Research Now, London, UK
